

# IT Infrastructure

---

4.3

---

### 4.3.1

Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

---

Our institution places a high priority on regularly updating and upgrading our IT facilities. It is committed to a proactive approach in maintaining and modernizing its IT system for efficient daily operations, facilitating effective communication and supporting academic endeavours.

Regular assessments are conducted to identify areas that require improvement or upgrades.

## **College is equipped with all necessary ICT infrastructures.**

---

The institute has a well-equipped laboratory with 30 computers available for student use. And another lab (Language lab) used by English Department. Keeping in mind the growing need of computers, we have recently upgraded the number of computers in the lab on 29/11/2022.

The computers have been steadily upgraded either by bringing new devices or upgrading existing devices.

The college has employed IT teacher and consultant for maintenance and support of ICT infrastructure.

## Contd...

---

- A backup is taken for all staff systems. LAN and Network connections are monitored by the IT In charge.
- We have a centralized Internet facility with two leased lines from BSNL and Jio, having a band with of 100 Mbps. We are in the process of installing Wifi Routers to make the campus WiFi enabled.

## Contd...

---

- The entire campus is covered by CCTV surveillance with CCTVs fitted at strategic points such as main gate, porch, office, principal room, library, staff room, class rooms. and 24 hours.
- The College has an ERP system which is used for Administration, Finance and Accounts, Student Admission and Support Examination.

**Computer Laboratory:** There are 2 well equipped computer laboratories
