International Seminar on Research Methodology

21st-28th June

GOVT. HRANGBANA COLLEGE Aizawl, Mizoram

INTERNATIONAL SEMINAR ON RESEARCH METHODOLOGY

21st- 28th June 2023 @ GHBC

CONCEPT

"All progress is born of inquiry. Doubt is often better than overconfidence, for it leads to inquiry, and inquiry leads to invention" is a famous Hudson Maxim in context of which the significance of research can well be understood. Increased amounts of research make progress possible.

Research inculcates scientific and inductive thinking and it promotes the development of logical habits of thinking and organisation. And within this context, the seminar aims to spread and motivate a habit of enquiry and search/thirst for truth amongst the students and faculty.

Even more so as the NEP2020 guideline leans more and more towards developing a research culture within students at a much earlier stage than before.

Research becomes meaningful only if done with the right methodology, and an attempt is made here to learn from experienced researchers from various fields of knowledge, and from different part of the globe to gain a wide perspective into the very what, why, where and how of research.

Govt. Hrangbana College strive always to be learning center where students thrive through learning experiences and as the post graduate students prepare for their dissertation and project works, it is only fair that such seminars are organised to give guidance, aspiration and drive to aim for the highest.

Organised

by

IQAC

in collaboration with

**Department of
Commerce,
GHBC**

OBJECTIVE

- (i) To expose participants to a wide variety of research approaches across many disciplines.
- (ii) To explore the processes and problems of designing and conducting various kinds of research.
- (iii) To introduce students to the most important conceptual approaches of research as well as to explore and formulate the theoretical framework for the analysis of the topic that is examined in the context of their Postgraduate Dissertation.
- (iv) To acquire knowledge about the use of different statistical techniques and methods.
- (v) To promote the progress of the knowledge society and generating new research ideas and promote free, creative and inductive thinking.

SUB THEMES

- Concepts and process of Research Writing
- Research ideas/trend in various fields of knowledge
- Statistical tools for analysis and interpretation of data
- Opportunities and prospects for further research studies
- E-resources and tools for research
- Contemporary issues for researches in today's world.
- Using academic research skills for tech companies etc.
